PROFESSIONAL SUMMARY

Full Stack Software Engineer with hands-on experience building web and mobile applications, specializing in React Native, React.js, Next.js, Flutter, and Python. Proven track record working in agile, remote, and multicultural environments, including collaboration on an international project (Expo Japan 2025, Osaka) and a digital transformation program in the Oil & Gas sector. Experienced across the full software development lifecycle, from UI/UX design to REST API integration and backend systems. Graduate of 42Luanda. Fluent in Portuguese with technical working proficiency in English, focused on delivering quality solutions within deadlines.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, C, C++

Frontend & Mobile: React.js, React Native, Next.js, Flutter, Dart, HTML5, CSS3, UI/UX Design

Backend & APIs: Node.js, REST APIs, Python, PHP (Laravel)

Tools & DevOps: Git, GitLab, GitHub, Docker, Google Cloud Platform, N8n

Methodologies: Scrum, Agile

Languages: Portuguese (Native), English (Intermediate/Technical)

PROFESSIONAL EXPERIENCE

Web Designer (UI/UX) — Pumangol

July 2025 – May 2026 | Luanda, Angola

- Designed UI/UX interfaces for the Oil & Gas sector's digital transformation program, producing high-fidelity prototypes across multiple platforms.
- Collaborated with cross-functional teams (product, engineering, and business) in an agile environment, delivering interactive prototypes aligned with client requirements.

Technology Freelancer — PFG Consultoria Educacional LTDA

September 2025 – Present | Remote, Brazil

- Provided remote technical guidance in programming and technology to Brazilian clients, covering multiple languages including JavaScript, Python, and C/C++.
- Developed and reviewed academic and professional projects, including technical reports, with a focus on quality and meeting deadlines.

Prompt Engineer — International Project — Expo Japan 2025 Osaka

July 2025 – November 2025 | Remote

- Produced an AI-generated 2D animated video for the Angola Pavilion at Expo Japan 2025.
- Collaborated on an Angola-Japan international cooperation project, meeting deadlines and quality standards required by international partners.

Mobile & Web Software Engineer — Agriconnect (Startup)

February 2025 – Present | Luanda, Angola

- Built cross-platform mobile applications using React Native and Flutter for an agricultural sector startup.
- Implemented front-end interfaces in React.js and TypeScript, integrating REST APIs with a Python backend.
- Participated in the full software development lifecycle, from design to deployment.

NutriScan App — Personal Project — React Native

Independent Project | Angola

- Developed an AI-powered nutrition tracking mobile app, reaching over 80 users across more than 7 countries.

EDUCATION

Software Engineering — 42Luanda

2024 – 2025 | *Common Core completed* | 42Advanced (Specialization, 2026 – in progress)

CERTIFICATIONS & ACHIEVEMENTS

- Expo Japan 2025: produced the video "The Story of Tchissola", showcased at the Angola Pavilion in Osaka.
- Active participant in cybersecurity competitions (CTF) via the 42ctf.org platform.
- NutriScan app published on the Uptodown platform.
- Full portfolio available at portfolio.geniomatias.me.
